

Compressed air injected in defined areas allows oxygen to be introduced

Suitable for new or existing above or below ground tanks and lagoons

## Product Information

The EASYFIX Slurry Technology is the Next Generation in Slurry Management Systems! The System injects compressed air into the slurry at specific points via non-return valves. The oxygen helps to break down the slurry and ensure that it remains in a liquid state - eliminating the need for agitation!

The EASYFIX Slurry Technology is proven to reduce ammonia emissions by 51%. Assists in the increased production of nutrients: Nitrogen, Phosphorus and Potassium.

### Technical Details

Dimensions (L x W x D)	N/A
Pallet Quantity	N/A
Colour	N/A
Weight	N/A
Fixings Required	N/A
Fixing Type	N/A
Warranty	5 Years

\*Please Note: All dimensions provided are subject to rubber manufacturing tolerances.

Please ensure that you adhere to the installation guidelines & instructions provided by EASYFIX. Only use fixings supplied and approved by EASYFIX as to do otherwise will void product warranty
